## Overview

Ceiling Mount 8 in 1 Sensor (See Figure 1) includes PIR motion sensor, LUX sensor, dry contact, etc., which can form different logic functions by logic block according to users' requirements. The module supports HDL security mode and commands, and can download IR code from HDL Buspro Setup Tool and emit IR codes in order to control the targets.

## Functions

- Built-in PIR sensor, LUX sensor, IR emitter, dry contact and universal switch.
- Logic inputs include LUX sensor, PIR sensor, 2 dry contact inputs, 2 universal switches .
- Two logic relations: OR, AND.
- Adjustable PIR sensitivity from 1 to 10.
- 12 logic blocks (2 switch numbers for each), 201-204 are assigned for universal switch, which has auto-off function with the delay time of 1-3600s.
- Logic can trigger different targets no matter it is true or false. Up to 10 targets can be triggered by each logic block.
- IR emission function of remote control code, supports 240 infrared emission targets, corresponding to the universal switch number 1-240. When uploading infrared code, multiple infrared codes can be selected to upload at the same time.
- Online update supported via HDL Buspro Setup Tool.
- Constant LUX function.

## Important Notes
